G-FORCE GYRO

The G-Force Gyro is a safe fun entertainment that gives you the opportunity to experience simulated weightlessness.

The Human Gyroscope was developed by NASA in the 1960's for use in the training program of the Apollo and Gemini Astronauts. The G-Force Gyro riders will enjoy a rotation of 360°, the speed and direction controlled by the rider. The riders experience the unique feeling of free three-dimensional rotation. This ride is tons of fun and is suitable for riders from 4'10" to 6'3" tall.

G-FORCE GAGA BALL

G-Force GaGa is a fast paced, high-energy sport played in an octagonal pit. The more players the better! This game combines the skills of dodging, striking, running and jumping, while trying to hit opponents with a ball below the knees. Players need to keep moving to avoid getting tagged by the ball. Fun and easy, everyone gets a serious workout!

CARICATURES | FACE PAINTERS | HENNA | AIR BRUSH TATTOOS

Caricatures are a great interactive form of entertainment for you and your guest. They bring home a unique gift from your party/event that they will cherish.

Our face painters can transform your party guests into their favorite super hero's, animals or characters! Our painters have years of experience and use only non-toxic paint.

The henna body art design will darken over the next few days and will last 1-3 weeks. Because it is all-natural, it stains the skin one color, reddish-brown and varies with the skin tone.

We provide temporary airbrush tattoos for all types of events. No event is too small or large. Our paints are safe, organic, and can last up to 2 weeks. We only use USDA approved paint.
